(S) TOMMY JESSE WARD KARL ALLEN FONTENOT	INTERVIEW OF STEVEN BEVILL	09-23-85	
(V) DONNA DENICE HA			

September 19, 1985, STEVEN WAYNE BEVILL, an Indian Male, Date of Birth: March 22, 1956, General Delivery, Connerville, Oklahoma, was interviewed at his home by Agent K. LARSH and District Attorney Investigator LOYD BOND. BEVILL provided the following information:

In 1976, BEVILL had lung surgery at South Community Hospital in Oklahoma City, Oklahoma. BEVILL did not use drugs or alcohol. BEVILL drove an Oldsmobile Cutlass. BEVILL was registered to WILLIAM PORTEL. In December 1983, BEVILL purchased a trailer house from Goodyear Mobile home then in January 1984, the trailer was "set up" at 1600 Southeast Eighty-Third Street, Oklahoma City, Oklahoma. BEVILL and his wife, LILLY (TOMPSON) BEVILL, lived there until July 13, 1984, at which time it was moved to the Brook Trailer Park, Ada, Oklahoma.

BEVILL worked for Ramos Chrome Plating Company at 1320 South Walker in Oklahoma City and for Mills Roofing Truss Company during that time.

BEVILL built a roof over a trailer house just before he began working for Mills Roofing.

He became sick in fall 1983 and did not work for several months and was under the care of LARRY CHOATE, M.D..

BEVILL'S son, ANDY BEVILL, a nine year old white male, had a birthday party late in the afternoon of April 20, 1984. BEVILL, ANDY BEVILL, grandmother MARGIE STOLZENBACH and a friend, JOHNNY HILLS, were at the party.

On April 29, 1984, JOHNNY MILLS, LILLIAN BEVILL and STEVEN BEVILL went to Paris Flea Market, Fifteenth and Eastern, Oklahoma City, Oklahoma, and purchased a pair of boots for ANDY'S birthday.

BEVILL had known TOMMY WARD for about ten years. BEVILL'S wife LILLIAN grew up about two blocks from TOMMY WARD.

During the first part of 1984, while STEVEN BEVILL lived in Oklahoma City, his trailer was located near Interstate 35 highway. JIMMY WARD, who was TOMMY'S brother, lived in Pauls Valley, Oklahoma, and JIMMY made frequent trips to the Veteran's Administration Hospital in Oklahoma City. WARD occasionally stopped at BEVILL'S trailer for ten or fifteen minutes on those trips. JIMMY told BEVILL that JOEL WARD had a gray pickup with "big old tires" and that he gave or sold it to JIMMY. JIMMY traded the pickup to TOMMY WARD for the brown Mercury Cougar that JIMMY drove to BEVILL'S trailer.

During the summer 1984, while BEVILL was living at the Brook Trailer House, at about 0630 hours, TOMMY WARD and CARL FONTENOT came to BEVILL'S trailer house. Their red and white 360 Yamaha motorcycle had broken down west of Asher, Oklahoma. They wanted BEVILL to haul the motorcycle for them. BEVILL, WARD and FONTENOT went to Asher and got the motorcycle and returned to BEVILL'S trailer. BEVILL attempted to fix the motorcycle, but failed and then took it to SUSSIE WARD'S house. During the trip, WARD said about two weeks earlier he was working in Norman and the Ada police questioned him about the death of DONNA HARAWAY, but he did not know anything about it.

Both CARL FONTENOT and TOMMY WARD'S hair was about collar length.

In 1983, STEVEN BEVILL lived in Coal County, Oklahoma and SUSSIE WARD delivered BEVILL'S newspaper. SUSSIE WARD drove a blue Datsun car.

At about September 16, 1985, a man served BEVILL a subpoena and asked if BEVILL would talk to Attorney DON WYATT in Ada, Oklahoma. BEVILL and the man went to Ada and talked to WYATT. WYATT did not say much. WYATT listened as BEVILL and the man talked. They asked if BEVILL, who usually wore his hair in a ponytail, would wear his hair short and shave his goatee for his court appearance. They also suggested BEVILL wear other clothing, but BEVILL told them he would not wear other clothing. They asked BEVILL to call in to WYATT'S office daily. BEVILL expected to testify Friday, September 20, 1984.

Dear Sir:

Enclosed are photographs, descriptive data, and dental information on 1) Josephine Yvette Cogburn, W/F DOB: 4/10/67, and 2) Carla Denise Sandusky, W/F, DOB: 3/12/50. Due to similarities, the dental records from each should be compared to the unidentified female, discovered 11/10/85, Allenstown, N.H., NIC/U175666372.

I have also eliminated the following missing persons through a preliminary comparison of dental records:

Donna Denise Haraway  
W/F, DOB: 8/19/59

Melody Ann Jones  
W/F, DOB: 11/27/63

Lisa Farmer  
W/F, DOB: 2/1/65

Patricia Arlene Hamilton  
W/F DOB: 6/12/64

Joyce Irene Cogburn  
W/F, DOB 5/10/68

Results of the dental comparisons should be forwarded to the letterhead address, attention: Lydia Kimball, Criminal Analyst.

Should you require further information or assistance, please feel free to contact this office.

Sincerely,

TED R. LIMKE  
Director

Case: CR#84-094	Reporting Date: JANUARY 31, 1986	Reporting Agent(s): RUSTY FEATHERSTONE		Reviewed By:
Offense: HOMICIDE	Case Agent: ROGERS	Office: ERO	Typed By: dc	Date: 2/27/86
Subject: (V) DONNA HARAWAY (S) TOMMY WARD KARL FONTENOT		Activity: AGENT'S RECEIPT OF POSSIBLE HUMAN REMAINS		

On January 30, 1986, MIKE EVETT, a private investigator employed through Professional Investigations, P. O. Box 1704, Oklahoma City, Oklahoma, business phone 341-1793, residence phone 341-4439, office address 315 West Edmond Road, Edmond, Oklahoma, came to the Headquarters building of the OSBI carrying articles found east of Ada, Oklahoma on January 29.

EVETT and his father, W. B. EVETT, of Route 1, Allen, were on the elder EVETT'S property east of Ada. The EVETT property abuts the property previously owned by BUD GULLEN, who is now deceased. The property is believed to be owned now by GULLEN'S daughters, who have leased the property to ALLEN TATOM. EVETT believes it is TATOM who found the remains recently identified as DONNA HARAWAY on his property. On the 29th, EVETT and his father were walking across their property when they made a decision to go on to TATOM'S leased land to look at the area where the remains had been found. The EVETTS were accompanied by a cattle dog, which as they entered the TATOM property, jumped up a "pack rat." The rat was seen to run and jump into a hollow tree and later was run out of the tree by the dog. EVETT walked over and looked into the hollowed out portion of the tree and observed a pack rat's nest. Based on previous experience, EVETT knows that pack rats will retrieve anything of a shiny nature or unusual nature and return it to their nest. Based on this, EVETT began to probe the nest and finally found what appeared to be a human bone. EVETT removed the bone from the nest and continued to dig further in the paper, straw, nuts, and other debris of the nest. EVETT soon found a gold ladies' wrist watch with a leather band and upon probing a little deeper, found another bone which appeared to be a bone similar to a part of a human spine. EVETT secured these articles along with bits of remnant paper found in the nest into a sack and brought it to the Oklahoma City office of the OSBI.

EVETT described the location of the pack rat nest to be about six feet off of a path that runs behind a pond generally southwest of where he believes the HARAWAY remains

to have been found. EVETT estimates the distance from where the remains had previously been found as thirty to fifty feet southwesterly. EVETT indicated he was using as a reference point an area that appeared to have been raked and also where a used rubber glove was left behind, apparently by crime scene investigators.

EVETT said that his father could be reached at 405/851-2696 if investigators needed to return to the scene for any reason. If investigators attempt to contact the father at that number, they should be aware that this is EVETT'S grandmother's number, and she is somewhat reclusive. If they do not find themselves successful in reaching the father very quickly after contacting the grandmother, investigators should then contact EVETT at his place of employment.

On January 30, 1986, FEATHERSTONE took the two bones submitted by EVETT to the Office of the Chief Medical Examiner, where they were turned over to Medical Examiner Field Investigative Agent NICK GRAHAM. GRAHAM quickly looked at the bones and described the two bones as definitely human and believed them to have been part of the clavicle and what he described as a c-pine joint. GRAHAM signed a property receipt showing reception of the bones turned over to his office. This receipt is attached to this report.

FEATHERSTONE took the watch to ANN REED, OSBI Serologist, who upon examining the watch, suggested that there'd be very little value in examining the remains for any type of serology comparison due to the time of exposure of the watch and the fact that it is believed that when pack rats drag new items to the area of their nest, the nest is continually urinated on in order to drive off other rats in the area. This would cause confusing antigen results in a serology study.
